MEMOIR

by GamFratesi 2023

MEMOIR is a product family designed by GamFratesi based on a modern take and interpretation of the classic chandelier. At the heart of the design is the gently shaped opal glass shade that evokes a historical typology and romantic spirit. The linear metal structures compose a graphic outline that allows it to be connected in numerous compositions. The simplistic ingenuity of the MEMOIR lighting system bridges decorative details of the past and a sculptural silhouette intended for modern spaces.

REPOSE

by GamFratesi 2021

REPOSE is a series of opal glass lamps designed by GamFratesi. Its strong sense of character is achieved by the poetic balance point of the thin line crossing the top of the organic shades. Designed to provide a calm atmosphere with its diffused light, graphic expression and soft shapes.

ERGO

by Bent Karlby 1971

True to its 1970s space-age heritage, the first ERGO lamps came in popping colours and were made entirely from plastic. While retaining its characteristic design language, ERGO has grown into a premium piece of lighting design.

GOTHIC

by Bent Karlby 1970

The name was a reference by Karlby to the gothic architectural style that flourished throughout Europe from the 12th to the 16th century, which was characterized by tall narrow structures with pointed arches. The open top allows for upward lighting that leaves a striking pattern on the wall.

PAN
by Bent Karlby 1970

The PAN series is a beautiful example of Bent Karlby's unique talent for capturing the zeitgeist of an area and turning it into designs that would come to transcend their inspiration. The monochrome surfaces of anodized aluminium transform the PAN series into contemporary design pieces for modern living.

CORNEA

by Henning Koppel 1965

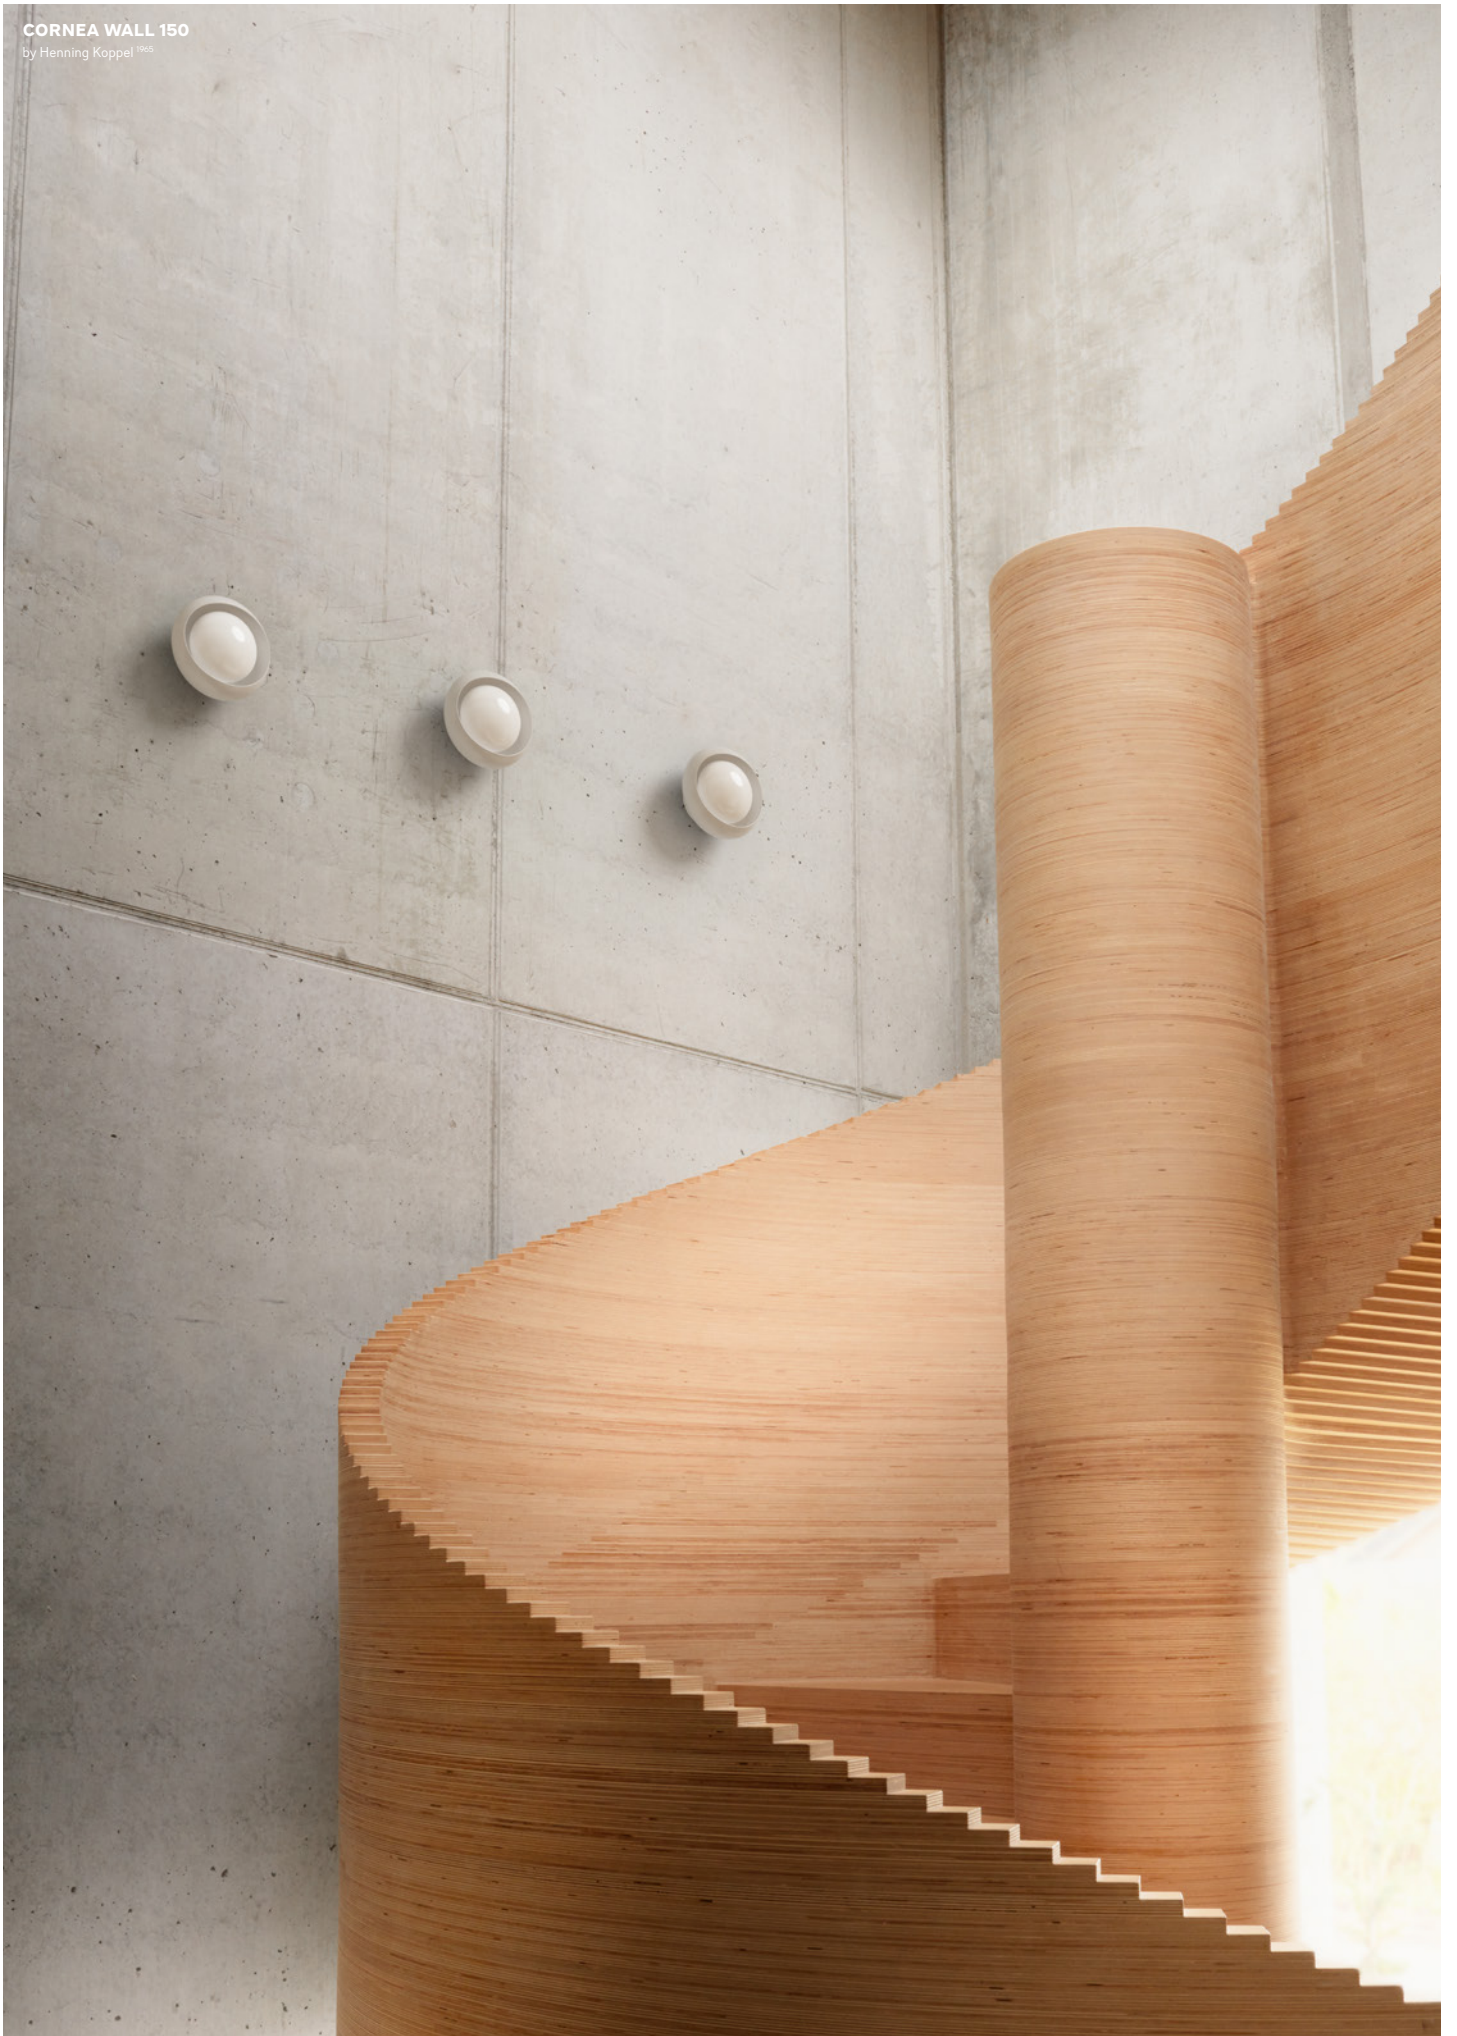

CORNEA was designed by the renowned sculptor Henning Koppel in 1965 and is one of his rare lighting designs. The circular wall light is shaped with an inner, opal glass shade that provides a comfortable, diffused light. Its distinctive character is achieved by the asymmetric outer shade that encapsulates the soft, white light as two eyelids. The CORNEA lighting design is named as a reference to the transparent part of the human eye, which allows light to enter the inside and enhances sharpness.

DIVAN 2

by Simon P. Henningsen 1962

In 1962, Simon P. Henningsen unveiled a new pendant purposely designed for the Tivoli's famous restaurant, Divan 2. The rooms offered spectacular views over the garden lake and at night, the pendant's mirrored surfaces would catch the light from the famous fireworks and the lake.

MOSAİK

by Bent Karlby 1959

The MOSAİK collection is an ingenious lighting system based on a simple, geometrical design principle. At the heart of the system is the iconic conical lampshade and a connecting brass tube that allow for several surprising lamp designs.

NINOTCHKA

by Bent Karlby ¹⁹⁵⁴

When giving shape to the NINOTCHKA pendant, Bent Karlby took note of an eye-catching hat, worn by the Swedish Hollywood star Greta Garbo in her 1939 film, Ninotchka. The organic body with its asymmetrical drapes ensures functional direct downlight and an ambient uplight.

SUNDOWNER

by Jørn Utzon 1948

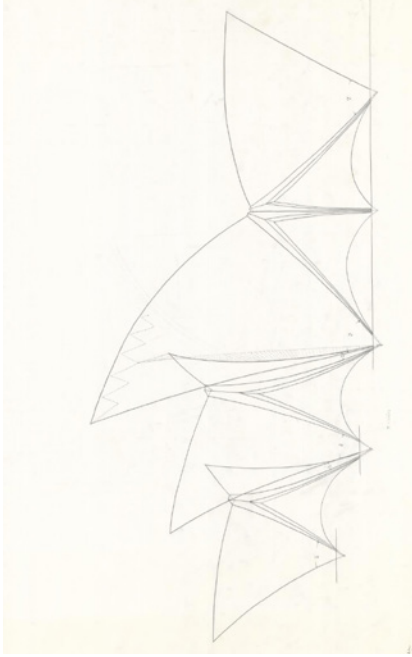

SUNDOWNER is designed by Jørn Utzon in 1948. The soft curves and opposite-facing shades are designed prior to Utzon's architectural masterpiece, the Sydney Opera House. With its dynamic design, the SUNDOWNER pendant expresses a clear linkage to the unique shell structures that adorn the Sydney Harbour.

PEANUT

by Bent Karlby ¹⁹⁴⁶

Introduced in 1946 at a time when fluorescent lighting was gaining widespread popularity across society. Bent Karlby shared a strong distaste for this harsh and cold lighting. With its organic shapes and elegant brass detailing, the PEANUT pendant became his solution for soft and pleasant room lighting that was equally appealing to look at.
